ATTORNEYS AT LAW
JUDGE BUILDING
SALT LAKE CITY

December 31, 1927

DEC 31 1927

Mr. George M. Bacon,
State Engineer,
Salt Lake City, Utah.

Dear Sir:

Herewith we enclose the application for extension of time in which to submit Proof of Appropriation with regard to Application No. 9826 of Vern W. Pace, and application for extension of time in which to make Proof of Completion of Works with regard to Application No. 9827 of the same applicant.

This fall you wrote to Mr. Pace stating that complaint had been made that the measuring device had not been placed in Boul Creek as required by your office.

You will perhaps recall that report of Mr. Weber showed that on June 20, to 23rd, the waters of Boul Creek were allowed to run down stream toward the Hall ranch, and that said waters would not reach the ranch of Mr. Hall at that time in quantities sufficient to be of any benefit. The waters at the date of the test by Mr. Weber, we are informed, were as they naturally would be higher than at any time subsequent during the irrigation season of 1927. It was for this reason that the measuring device was not installed.

Mr. Pace is willing to have Mr. Weber act as Water Commissioner and is willing to install such device in the stream as your office and Mr. Weber may recommend at some practicable point.

Mr. Pace has a considerable area under a good state of cultivation and does not want to see his crop fail for no beneficial purpose. When the water in June, at the time of the test, would not reach Mr. Hall it was thought that no useful purpose could be served by turning a smaller stream down at a later date.

We would suggest that Mr. Weber be asked for his recommendations as to the nature and location of a wier, if he

Mr. George M. Bacon

-2-

feels that same would serve any useful purpose, and Mr. Pace will then install same.

As it is sincerely felt that the measuring device would be at most a temporary matter because Hall will be unable to substantiate his claim, we would suggest that this be kept in mind in keeping the expense of the device as low as possible.

Respectfully,

SENIOR & SENIOR

Dict. CMS.
